

The Kinistino Heritage Garden is an extension of the Kinistino Legion Garden. It was created when the old Kinistino School Board building was demolished.

A new project for the Kinistino Communities in Bloom Committee has been to focus on further development of the Heritage Garden. Decorative butterflies will be installed as part of this project. As part of this, to further develop and to maintain the park, donations may be made to the park. These can be "memorials" or "donations".

Donations of \$100.00 or more will be recognized with a plaque that will be installed in the Heritage Garden next to the butterflies. These plaques will be 2" by 4" with up to 3 lines of engraving and 1 family per plaque. (The \$100.00 donation includes the cost of the plaque with engraving.)

Donations may be made at the town office using the attached form. Receipts will be issued.
